LAWO PROUDLY PRESENTS:

MC²56

A NEW SEQUEL OF THE MC² TRILOGY

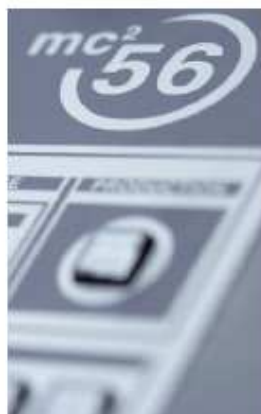

World Premiere of the new mc²56

Technical effects that will inspire you. An excellent cast that leaves nothing to be desired. And sound quality that is a treat to even the most fastidious ears. All this you will experience live at the premiere of the broadcasting industry's new sensation. However, the new blockbuster **mc²56 – A New Sequel in the mc² Trilogy** was not produced in Hollywood but comes from the dream factory of high-quality audio technology – from Lawo in Rastatt/Germany.

Look at these benefits of the mc²56:

- Superb performance thanks to the same HD core as used for the mc²90 and mc²66
- Optimised user confidence thanks to a reduced number of surface elements
- Maximum functionality from the clear control surface layout and compact construction.
